

PERU

Building Homes for Families

In Peru we partner with the Fuller Centre for Housing to assist with building earthquake resistant brick homes for families who are currently living in structures made of reed panels which are flimsy and lack privacy. Lima provides the perfect launch pad for your own onward travels to walk the Inca Trail, visit Cusco, Machu Picchu and the Amazon or further travel in South America.

TRIP CODE	PR – Building only
TRIP DURATION	10 days
DEPARTS NEW ZEALAND	August
ARRIVES NEW ZEALAND	August
